

Module:

Negotiated Learning

Level 7 Module

Duration: 3 months

Recommended study time: 150 hrs

Delivery: self-paced online learning

Course assessment: 3,000 word case assessment

Course code: 7FHH2076

Description:

The purpose of the module is to allow students to negotiate the specific content of their learning in order to maximise their specific clinical and/or professional interest. The module provides a rigorous framework for such study, ensuring the academic level and assessment criteria support the demonstration of achievement and equivalence of a Level 7 module. Students will be assigned a supervisor to support the development of their module contract, learning outcomes, and final negotiated learning project.

Module Outcomes

On completion of this module, students will be able to:

- 1** Meet content-specific learning outcomes agreed in an individual learning contract with the supervisor/module leader and programme lead.
- 2** Demonstrate skills of analysis, evaluation and synthesis in the investigation of an issue/concept relevant to the student's field of practice including the critical appraisal of existing knowledge, research, new evidence and innovations as appropriate.
- 3** Demonstrate the ability to plan and implement self-directed secondary research.
