Introduction to Dementia

Half-day practical workshop

Support your patients, improve your knowledge

This workshop is designed to help you to learn more about improving the on-going support and management of people with a diagnosis of dementia. There are over 850,000 people living with dementia in the UK and the figure is rising¹.

This workshop is linked to the NHS Knowledge and Skills Framework² and through informal lectures and interactive sessions, our expert trainer who has practical experience in dementia diagnosis and care will help you to identify ways to support people with dementia and how best to work with other providers to co-ordinate and support care.

The workshop will teach you improved communication skills and you will learn how to develop these within your team. You will return to your practice with renewed confidence in meeting the challenges of dementia care and support for your patients.

3. https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/168221/dh_094052.pdf

You will learn to . . .

- Place people with a diagnosis of dementia at the centre of care
- Work with family and carers to ensure compassionate and robust planning and needs assessment
- Use guidelines and the National Strategy³ to identify best practice

Our workshops

All our workshops are led by trained educators who are also experienced practising clinicians. We use high-quality learning materials and innovative practical exercises to tailor content for each group. We believe that learning should be fun and we always encourage participation.
