2017 Bursaries – student FAQs

How will I know which courses qualify for bursaries?

- Lists of courses that qualify for bursaries can be found here: https://www.educationforhealth.org/education/courses/funding-sponsorship/
- This list will regularly be updated with more courses, so please keep checking.
- Each individual course that qualifies for a bursary will have a link to the relevant bursary application form at the top of the page.
- A restricted number of bursaries may be available for any given course.

Can I apply for more than one bursary at a time?

Students will only be able to access one bursary at a time. This is to ensure they have sufficient time to dedicate to studying to meet the demands of the course.

How will Education for Health decide who gets a bursary?

Students will be asked to complete an online bursary application form on our website. Education for Health will review all applications and decide which students meet our agreed criteria.

The criteria are based on ensuring that the student is likely to have the best learning experience and therefore the best chance of successful outcomes. We want to ensure as far as possible that best value for money is achieved both for the student and their contribution and for the bursary donation.

To be awarded a bursary students will be required to demonstrate that they:

- Have previously studied at an appropriate academic level
- Are currently working as a health care practitioner in a related field
- Are confident that the learning experience will support their professional role
- Are confident that the learning experience will support improved patient care
- Have an understanding of any potential barriers to studying part time, blended learning and can show evidence of being able to mitigate against these.

What happens after I have applied?

Successful students will be provided with a unique booking code which will need to be used within 5 working days. This will include instructions on how to book the chosen course online using the code as a method of payment. The code can only be used once and only by the successful bursary applicant.

If the code is not used within five working days of receipt it will expire and students will need to start the application process again to acquire a replacement code.

Unsuccessful students will be notified of our decision and given the reasons why they were not successful. If appropriate, they may be encouraged to apply again.
How long will the bursary schemes run for?

There is no set end date for these bursary schemes. We will continue to offer bursaries until the funds have benefited as many students as possible. All courses that qualify for bursary funding will be listed on our website.

Will I still have to pay anything?

Yes. None of our bursary schemes cover 100% of the course fee. Students will be required to make a contribution. This amount varies depending on the individual bursary scheme. Full details are available on the website bursary pages.

What if I change my mind about the course?

Students who have booked on to a course using a bursary code but no longer wish to attend should contact us to discuss, bursary@educationforhealth.org

What about students who wish to defer?

Once students are enrolled our normal terms and condition apply. There are available here

Who can answer my questions about the bursary application process?

Please forward any questions to bursary@educationforhealth.org
